

Meet-up Time, Tuesday, 3/11

[www.FALLOUTS.org](http://www.FALLOUTS.org)

**FLASH MOB**

**Remembers Fukushima Victims**

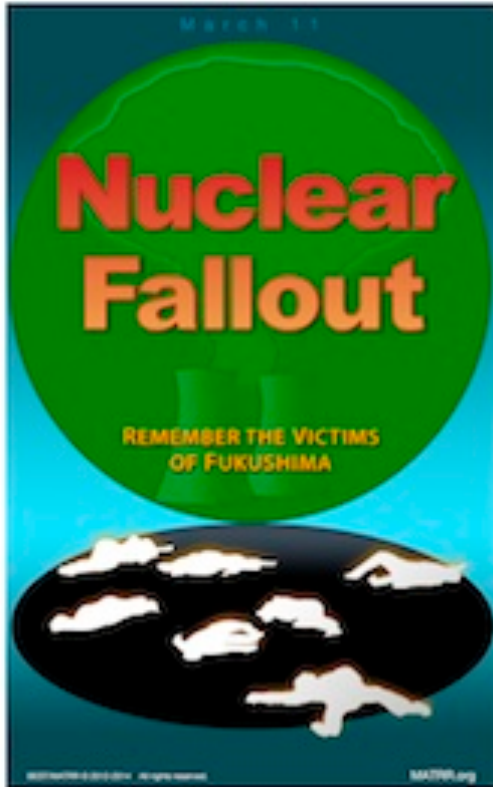

Two minute flash mob 'Fallouts' in solidarity with Fukushima victims exposed to radiation. Call friends and plan your half-hour action:

**Fallouts on Tuesday, March 11th**

FLASH MOB 'Fallouts' acknowledge the victims of Fukushima exposed to radioactive toxins and bring attention to the delayed symptoms (but very real dangers) of nuclear power radiation releases.

In addition to the natural disasters of the earthquake and tsunami, the man-made nuclear disaster of Fukushima leaves tragic long-range effects from displacement and illness on thousands of Japanese (and U.S. Navy) families. Numerous studies show significant rises in cancer near nuclear power plants, especially in women and children. [www.fallouts.org](http://www.fallouts.org)
